

Hello Everyone,

Here are some ideas and materials that you can use to help yourself prepare for the EOC when we return from the quarantine caused by coronavirus. Please know that I will not be grading these, but that I will provide extensive feedback and virtual assistance. I know that many of you do not have internet access. Please use the SpringBoard workbook to help keep your skills fresh and learn new ones. Please use Remind and Google Classroom for assistance or to contact me.

Assignments:

Write a daily journal about this historic event, or write it as a narrative, where you explain what is going on in your world in regards to the coronavirus. This will help you practice writing narratives.

Write a research paper about the coronavirus and the impacts that it has had on America. Do the digging, where did it come from, what can we do to stop the spread, how harmful is it. Remember to cite your sources and use correct grammar, punctuation, etc. This is a research paper, another foundational part of the EOC.

In SpringBoard, either the physical workbook or the digital version, we will work on review materials and learn some new information.
